Compliance checklist

To review compliance regulations and standards, read the <u>controls, frameworks, and compliance</u> document.

☐ The Federal Energy Regulatory Commission - North American Electric Reliability Corporation (FERC-NERC)
The FERC-NERC regulation applies to organizations that work with electricity or that are involved with the U.S. and North American power grid. Organizations have an obligation to prepare for, mitigate, and report any potential security incident that can negatively affect the power grid. Organizations are legally required to adhere to the Critical Infrastructure Protection Reliability Standards (CIP) defined by the FERC.
Explanation:
☐ General Data Protection Regulation (GDPR)
GDPR is a European Union (E.U.) general data regulation that protects the processing of E.U. citizens' data and their right to privacy in and out of E.U. territory. Additionally, if a breach occurs and a E.U. citizen's data is compromised, they must be informed within 72 hours of the incident.
Explanation:
☐ Payment Card Industry Data Security Standard (PCI DSS)

PCI DSS is an international security standard meant to ensure that organizations storing, accepting, processing, and transmitting credit card information do so in a secure environment.

Explanation:

The Health Insurance Portability and Accountability Act (HIPAA)
HIPAA is a federal law established in 1996 to protect U.S. patients' health
information. This law prohibits patient information from being shared without
their consent. Organizations have a legal obligation to inform patients of a
breach.
